## Course page

Here you can also see when the course is offered, if more than one semester show up, the filtered semester is marked in black, the other semesters are marked in grey.

If a course is offered in both study sites, both sites will show up even if you have used the filter to mark only one of the study sites. (Please note that you can only study at one study site per semester).

On the course page you will find the course content, syllabus, prerequisites etc:

Above the information for each course, it will say: (Example): **Kalmar, 25%, Distance**
